PROJECTS

- **Inventory Management System(MERN Stack)**: Developed a full-stack Inventory Management System using the MERN (MongoDB, Express.js, React.js, Node.js) stack to streamline inventory tracking and stock management. Implemented user authentication, CRUD operations for products, and real-time stock updates. Designed an intuitive dashboard with React for visualizing stock levels and sales data. Integrated RESTful APIs with Node.js and Express to manage inventory transactions. Utilized MongoDB for efficient data storage and retrieval. Ensured smooth user experience with role-based access control and optimized database queries for performance.
- **GGSIPU Main Website**(HTML, CSS, JavaScript): This is the main university website of GGSIPU University which has 114 affiliated colleges.
- **Student Feedback Portal of GGSIPU(MERN Stack)**: A portal where the students of GGSIPU Main campus can login and give their valuable feedback of Teachers.
